"To Be One"

I see rainbow in the sky
Colours that brighten my world
I hear the hummingbird
Singing a beautiful song

The song of love and laughther
The song of peace and hope
I don't want this to end
I want this to be forever

Eventhough we're not the same
Different ways
And we walk on
Different path
Different road
In this life
Can we hold each other's hand
Together in this world
And be as one

It will be a better place
Better home
This'll give us peace of mind
Fill with love
No more tears
This where you untie the love
No more cry only smile
The place for us
To be one
