Beside you restless still unknown  
Held on to let you go  
Feels like a new world in design  
So empty and you home  
Believing that Im the one to fall  
I shoulder the burden til you call  
Believing that Im the one to fall  
I shoulder the burden  
Silent  
Seems like a blue world in my mind  
Still empty and your home  
Believing that Im the one to fall  
I shoulder the burden til you call  
Believing that Im the one to fall  
I shoulder the burden  
Silent  
Too far  
Weakness  
Too far  
Im spent  
Too far  
Distant  
Too far  
Here we go backwards into the light  
I close my eyes, don't wanna wait for you  
Backwards into the light  
I close my eyes, don't wanna wait for you  
Backwards into the light  
I close my eyes, don't wanna wait for you  
Backwards into the light  
I close my eyes
