Goodnight, my love  
Pleasant dreams, sleep tight, my love  
May tomorrow be sunny and bright  
And bring you closer to me now

Before you go  
There is one thing I like to know  
May tomorrow be sunny and bright  
And bring you closer to me

If you should awake in the still of the night  
Baby, please have no fear for I'll be there  
You know I care, please save your love for me dear,  
always

Goodnight, my love  
Pleasant dreams and sleep tight, my love  
May tomorrow be sunny and bright  
And bring you closer to me

Goodnight
