I need somebody
Who's consistent with me
Someone already there
When I need company
Cuz when I'm feelin low
I don't wanna have to go out lookin'
For a Part time love

And when the dreams and rainbows start to disappear
I don't want somebody up and runnin out of here
Cus when you stop and start
Baby it's a just too hard upon my heart
For a part time kind of love

I can't take it now
Now listen here wait'n see
I want somebodys who's committed now to me
Somewhere, somewhere
Someday, Someday you've got to take a chance
And if you like the music Baby
Get up and dance

If we go together daring to dream
I know were going to find our share of peaches and
cream
And when the juice is low
I don't want to know no no no excuses
Just want your full time love for me
