[Chorus]

We can make this just the two of us,
Allow the world allow the crowds and all the fuss,
I'll wait for you just like you taught me to.

[Verse]

Lets take it outside,
I couldn't bring myself to dance with you last time,
Whisper all these things right in my ear,
Lets get a car any car away from here.

Maybe we can hold hands,
Follow me and we can walk to the white sands,
I never thought you would choose a guy like me,

I'm not keen not mean not much to see

[Chorus]

[Verse]

Follow me for four years,
And live a life full of love full of no tears,
Perhaps together, yeah, we can buy a car,
Drive until it's dark

Walk with me outside,
Tell me that it's all lies,
Tell me that your all mine,

I never Knew, how it feels to ruin everything going for
you.
I'm out of space, out of time. I'm not alright.

[Chorus]
