Brothers and sisters
Please heed what I say
Watch out for the infamous they
The ways they crave to enslave
From your fairy tales to your early grave

Do you have your eyes and mind wide open now
Or are you enslaved to your beliefs?

All that glitters is bought and sold
Don't believe what you've been told
They'll take you quick and waste you clean
Make us sick enslaved to machines

Make believe you're someone else long enough
Until you are the person you always wanted to be
One day soon you'll be gone and dead and then
You better know yourself

Do you have respect in your heaven now?
Do you have priviledges in your hell?
Do you have respect in your heaven now?

Bridge

Put your money where your mouth is if you want to kiss
these lips
'cause' I don't eat shit and I don't taste piss
Sick to death of hypocrites, mood swings and politics
Bullshit and rhetoric from idiots and dim wits
So put your money where your mouth is if you want to
kiss these lips
'cause' I don't eat shit and I don't take piss

They give you the nightly news so you'll be slightly
confused
Oooh watch out!
They're conditioning you

Read between the lines and behind every word
Expect the impossible and consider the absurd

All that glitters is bought and sold
Don't believe what you've been told
They'll take you quick and waste you clean
Make us sick enslaved to machines
