I am my own God
Nobody's come along to save me yet

I was raised on sugar cane and television fiction
I educated my brain with LSD wisdom
Now I speed through the lies of life
With precisional grace
I have learned that the only way
Is to have my own faith

I am my own God
Nobody's come along to save me yet
I am my own God
Nobody's come along to save me yet

Suck the cock of the money dog
It might get you paid
Fuck the hole of any whore
It might get you your way
What have we learned
Ooh how not to get burned
He who jacks the last the best my friend
That's who jacks the proudest

I am my own God
Nobody's come along to save me yet
I am my own God
Nobody's come along to save me yet

The news and schools and history books
It's tainted and diseased
Cut n' pasted to perfection so you can digest it
Sugar coat them lies
You cannot taste it
They give you lite enlightenment
And they make sure your brain is raped dead

I am my own God
Nobody's come along to save me yet
I am my own God
Nobody's come along to save me yet
I am my own God

Nobody's come along to save me yet
I am my own God
Nobody's come along to save me yet
