When it gets too much for you to bear
What will always take you there?
The savior of sound never lets you down
Fills you full of love from your shoes to your hair

Shake Me Take Me Make Me Laugh till I cry
Tonight the world can fall apart while you and I die
The best revenge has always been living well
And watching your enemies die in hell

Love to live your life - Live it out loud
Love yourself to death - Live it out proud
Build a coat of arms made from self-esteem
Live a life of make believe - Live a life of dreams

Shake Me Take Me Make Me Laugh till I cry
Tonight the world can fall apart while you and I die
The best revenge has always been living well
And watching your enemies die in hell

How can they say it's wrong?
How can they judge a song?
How can they say it's evil?
How can they say it's evil?
Kill all the stupid people
Kill all the stupid people

When the world spits you out and leaves you for dead
Build a coat of arms made from self-esteem
Call on the one who never ever lets you down
Fills you with strength from your feet to your head

Shake Me Take Me Make Me Laugh till I cry
Tonight the world can fall apart while you and I die
The best revenge has always been living well
And watching your enemies die in hell

The best revenge is living well
