Fell short with eyes to be my guide  
Cause I swear, I've been here before  
Found hope tangled in flight  
Cause I swear, I've lost mine.

But to lose myself is gaining the world.  
Why can't you see love has died?  
Hold your hands in the air tonight  
When you're white and blind and out of my fight

You're fighting for this battle  
It's won between you and yourself  
So choose your line.  
Just stop losing, one more time.

So hold your head up tonight  
So hold your head up tonight  
So hold your head up tonight  
So hold your head

Tonight.
