

Glass Bottom Boat "DeathForce Trauma"

Put me in again, I won't feel a thing
Immune to the pain, and the subtle silence
Use the dagger, the one you know all too well
And make sure the scars look the same
Make sure the scars look the same...

Make sure the scars still look the
Wipe all the blood from the outside

Make sure the scars still look the same...
Make sure the scars still look the
Wipe all the blood from the outside
Make sure the scars still look the same...

Deathforce...Trauma, she'll give you what you need
Deathforce...Trauma, she'll give you what you
breathe
