Many days many ways Many faces down the line. Gets you from the airport And dress em up by the list. If people whisper it makes her nervous. In several days I just might prove worth it. they let you decide So after all After all After all After all They let you decide Any ways, Walk the many walks of life. Anyway If people see her she might get nervous Gets you from the airport And dress-em-up?Ts by the list, IN several days you just might do another. After I So after all They let you decide After all After I They let you decide We are the most impassioned ugly people, ugly people, ugly people sayyy..... After all, after all They let you decide.
