Inside
She comes and then she goes
Lipstick on her face
She hides but then she
Shows me
To her secret place

Underwater
Fading in the light
Breathe inside her
Make her come alive

All I see
Are dreams of me and her
Living in my head
I watch from my window
I dream upon my bed

Underwater
Fading in the light
Breathe inside her
Bring her back to life

Underwater
Fading in the light
Breathe inside her
Make her come alive

Underwater
Fading in the light
Breathe inside her
Bring her back to life
