Don't stop breathing  
I'm not leaving  
Chasing your life  
In circles

Hold on to me  
Don't you, don't you let go  
You've been here all my life

You're not flying now  
Your head is on the ground  
When everything is dark  
And there is no light around  
Don't let go  
I see it on your face  
What you don't want to show  
To the lights

Eyes wide open  
Alive, frozen  
Rushing inside  
The colours

Come back to me  
Don't you, don't you let go  
Tell me it's not  
Too late

You're not flying now  
Your head is on the ground  
When everything is dark  
And there is no light around  
Don't let go  
I see it on your face  
What you don't want to show  
To the lights

Suddenly you're walking  
Suddenly you're walking
