I'm sleeping
All alone tonight
So don't call
On my phone tonight
By your side
Is where I wanted to be
So I tried
But it was never for me
I'm calling out
For someone's help
I'm falling
All by myself
I believe that you're
Addicted to me
C'est la vie, just set me free
A man's mind
And a woman's heart
It could only hurt
That's how we're torn apart
Well I thought you gave me love
Or was it just sympathy
But you know it worked
And now you're hurting for me
CHORUS:
So I'll leave
And go far away from here
Yes, I'll leave
And go far away from here
Oh! And I'm falling, falling
Down on my knees
Darling all I want is to be free
.. Rescue me
