Just a boy--seventeen
You changed my life--over and over
Sexy girl--a movie queen
I've never seen the sunlight shining
Now looking back--at my life
Played some games--over and over
And I broke some hearts--once or twice
Now I'm standing all alone
Down on my luck nowhere to go
Let's talk about
Who's to blame
Let's talk about
Hiding shame
Let's talk about
What to do
Let's talk about
Trying to turn what's wrong into right
Running to catch up with my life
People come--but lovers go
I'd change the scene--over and over
Some give and take--is what we need
I never felt it was worth trying
Oh! Can't you see--that all my life
I'm born to run--over and over
So take me home I'll make you mine
Trying to turn what's
Wrong into right
Running to catch up
With my life
Let's talk about
What to do
Let's talk about
Me and you
Let's talk about
Who's to blame
Trying to turn what's wrong into right
Running to catch up with my life
Oh--I know you've seen this all before
Why do you keep on trying more
You tell me love's worth fighting for
What are we fighting for!
