

Glass Pear "Violet Waters"

Visit "[Violet Waters](#)" on MotoLyrics.com

Come with me to violet waters
Far away from here
Come with me sons and daughters
She will dry your tears

Filling my eyes something beautiful
Words can't describe all the miracles
Now all we've got is each other
But life won't last forever, forever

Run and see a hundred colours
On the autumn leaves
Stepping on the ghosts of lovers
Playing in the breeze

Filling my eyes something beautiful
Words can't describe all the miracles
Falling, falling into your heart
Oh, oh
Now all we've got is each other
But life won't last forever, forever

Come with me to violet waters
Far away from here
I know, I know
Where you go I'll follow
On the horizon
On the horizon

Now all we've got is each other
But life won't last forever
We'll try, we'll try to stay together
But life won't last forever
Forever
