Look at you
Look at me
In this wild place
In this wild place
All that we have ever seen
Is this wild place

So don't go looking for
The days you've lost
Cause you've got so much more
To give before you now
My love

Cherish who you have to hold
Cause they wont always be there for you
Naked here and vulnerable
Yeah you're fragile
And I am too!

So don't go looking for
The days you've lost
Cause you've got so much more
To give before you now
My love

In this wild place
In this wild place

So don't go looking for
The days you've lost
Cause you've got so much more
To give before you now
My love
My love
