"Words To Make Up"

Visit "[Words To Make Up](#)" on MotoLyrics.com

Who am I?
Just another misunderstanding in my book
Too bad Im afraid to speak your name, to hold your
hand
(to hold your hand)
You said I could be the best thing that happened to you
Where did all those thoughts and words go to?

You taught me what it was to smile
You taught me what it was to be alive
(to be alive)
You said I could be the best thing that happened to you
(the best thing that happened to you)
Where did all those thoughts and words go to?
(words go to)

Maybe we'll be the talk around town
We'll roll around all day on the ground
(all day on the ground)
You said I could be the best thing that happened to you
(the best thing that happened to you)
Where did all those thoughts and words go to?
(words go to)

You and I put our problems aside
And let the times go by (you)
You and I (you) put out problems aside
And let the times go by
