She cured the plague of the holy child
And all the while I've been watching
And, "Boom", she said in her room
With her red fingernails and a grip on the answers

When it's home and I'm broken, let's fix
When it's home and I'm swollen, let's kiss
When it's home and we'll walk, she'll lead
If she's waiting, we'll leave

I'm so gracious, I've got you here

If you touch it, it's cold
If you drop it, it breaks
If you hug it, it shivers
Hold it, it shakes

I'm, "Boom", she said
"I'm so gracious, my name's, 'I Dare'"
I'm so gracious, no
I pray to God, it's over, you fuck
I swear, this feels sick

The child, you fucked it all the while
And you fucked it all the while
I swear to God that it's over
I've been fucked all the while
I pray to God that it's over

Just let me be alone and all the while
Said, "All the while"
