You only get one taste  
For this gift we are graced  
You only get one taste  
And for this gift, for this gift  
For this gift, wait, wait

Now let me go  
So I can brag about this gift that he stole  
For all my lonely nights  
I will carry this girl with me where I go

Bad taste in my mouth  
You would think I'm a whore  
Bad taste in my mouth  
You would think I'm  
You would think I'm

You only get one taste  
And for this gift fuck we are graced  
(I said that)  
You only get one taste  
I said and for this gift and for this gift

She's likely to go or so she'll say  
That we sleep as we do to keep our night's days away

I said love or so she'll say immature love  
You breed immature love  
So died the virgin  
I have told you before

You're nothing special to him  
And that's nothing new for  
Nothing new for you  
Nothing new for you

You'll be born  
You before

Embody me with your body  
I've never seen it I have never  
Embody me with your body

I've never seen it I have never

Embody me with your body  
I've never seen it I have never  
Embody me with your body  
I've never seen it I have never

Embody me with your body  
I've never seen it I have never  
You embody me with your body  
I've never seen it are you happy
