If it make's you If it makes you scared It takes you In
the bare, anyway If it makes you it takes you. I don't
want to See your face when you feel not alive. I dont
want to. You are there. You're lying in bed with the
pride of a lion. If you're shrewd enough to be
underlined, then You are there. A world pemier. It takes
you If it make's you I don't want to If it's the last thing
you do... In the bare, anyway If it's the last thing you
do... If it makes you stare If it's the last thing you do,
plagiarize. Are you there? You're lying in bed with the
pride of a lion. Are you there? If you're shrewd enough
to be underlined, then My boss said to me, take my
advice please we are not the competition instead, for
one second, up off your knees to be number one when
we strive, we strive..
