I see the black fade to gray  
I feel forwards as the only way  
Yesterday, all my happiness seemed so far away  
Now it looks as though it's here to stay

Shine like stars  
Shine like stars do

Cast a wish to the moon afar  
Spare a thought for the ones that matter  
If we could only mend the breaks  
Open up our arms to fate, sweet fate

And shine like stars  
Shine like stars  
Shine like stars do

I see the black fade to gray  
I feel forwards as the only way  
Hold on tightly and hope it all lasts  
Celebrate the future, forget the past

Shine like stars  
Shine like stars do

Shine like stars  
Shine like stars do
