Baby won't you dream, sweet dreams about me?
Let me share your love, even if it's only in your mind
Baby won't you dream, sweet dreams about me?
Dreams of happiness and secret pleasures we have yet
to find

And though we're far apart, won't you treat me in your
heart?
Till I'm back in your arms, where I belong
And dream sweet dreams about me, till I'm home
The time has come and it won't keep
That flame on the ground much longer

I've got to say goodbye for a while
So hold me one more time
'Cause hon, I'm gonna miss you, oh I miss you
So before I go, just let me see your smile

And baby won't you dream, sweet dreams about me?
Let me share your love, even if it's only in your mind
And though we're far apart
Baby won't you dream, sweet dreams about me till I'm
home?
