On a street in some big city lives the girl I love so well  
She left me for another now there's nothing much to  
tell

As I try to fit my life in a different mode I find  
That love is a lonesome river running through the  
lonesome mind

I took a plane to back when I was just a child that  
played

Time sure changed this old town oh it's not the same  
today

As I try to meet old friends none do I find  
Cause love is a lonesome river running through the  
lonesome mind

[ strings ]

There's trees along this river that are overgrown with  
pines

There's pools along this river where the sun will never  
shine

As I look into my heart and count my loss I find  
That love is a lonesome river running through the  
lonesome mind

Yes love is a lonesome river running through the  
lonesome mind
