Simon

You are the model of your age
Don't let the bastards take the stage

They don't love you

And hey

You are a pure light on the waves

Don't let them turn us into slaves

They don't care for you (Like I do)

Love that's given freely

It doesn't die, it only changes

And love that's taken easy

It has to hide in these exchanges

Glory

Don't get trampled under dust

Don't tell yourself you're out so much

Sometimes words won't be enough

And talkin', talkin' with the wolves

And you're talkin', talkin'

We don't even notice you

Love that's given freely

It doesn't die, it only changes

And love that's taken easy

It has to hide in these exchanges

Love that's given freely

It doesn't die, it only changes

And love that's taken easy

It has to hide in these exchanges
