I'm complication
Live wire down
Come agitation
Distorted sound

You're celebration
Girl on a swing
Passion and patience
Unbroken ring

It's simple, simple, simple
Simply all I need

I'm jagged rock
You, waterfall
Your gentle touch
You wear me down

Till I am smooth
Till I allow
Till I can bend
Till I bow

It's simple, simple, simple
Simply all I need

I'm jagged rock
You, waterfall
Your gentle touch
You wear me down

Twilight sleep, wanna forget
Everything these last years
Take them away
Wanna peace again

Simple, simple, simple
Simply all I need
Simply simple
Simply all I need
