He loves the outdoor spirit  
He's no computer man  
He hates the city traffic  
He doesn't understand  
He keeps a ledger diary  
'cause he's a conscious man

She's into garbo movies  
She has a retro style  
That girl knows what the truth is  
With her painted smile  
She likes to workout with her guru video

And we don't for trouble  
Can we break it down  
As we sit at the table  
And we don't burst the bubble  
And we come around  
Are you ready and able  
Like coffee & vanilla

They eat at joe's cantina  
They like to walk the strand  
They love the riviera  
They get there when they can  
She dances like ginger rogers  
He moves like fred astaire  
But they're just cosmic lovers  
You see them everywhere  
She's the comedy queen  
He's the late night king

And we don't for trouble  
Can we break it down  
As we sit at the table  
And we don't burst the bubble  
And we come around  
Are you ready and able  
Like coffee & vanilla

And they have given life a second chance  
And they won't let go

No need for loneliness  
With just one glance, will we ever know?

And we don't for trouble  
Can we break it down  
As we sit at the table  
And we don't burst the bubble  
And we come around  
Are you ready and able  
Like coffee & vanilla
