Ooh baby can you hear me
Down the phone?
Do you still wear that precious stone?
Just maybe, you wanna talk to me?
You'll never guess where I have been

I'm livin' with an alien
Where everything is green
A simple twist of fate again
As I slip into my dream

If you're wonderin'
And you don't know where I've been
I'm on another road
I did not hear the bell
Now I'm flyin'
I'm not livin' in my skin

I'm on another code
I'm in a cosmic spell

(Why have I waited all these years?
I hesitated through my fears)

Do tell me, are you qualified?
Before I take you on this ride
I think I'll satisfy your need
Now won't you take the funky seed?
