I see a worried man
I see the church
Hello, calypso,
Say goodbye to planet earth

Here come the dream man
Here come the luck
Here come the movie
That was taken from the book

I know of a place down in Mexico
I know a place when I'm done
I can see by your face
That you've been overcome
And you're not the only one
'cause I'm the second son

Inside your Chevrolet
No place to hide

You read the paper
With a pistol by your side

Outside the fortress
You build a bridge
Inside the pleasure dome
There burns a will to live

Chorus

Time is the healer
Time has no face
Time has no master plan
And time can't fall from grace

Chorus
