

## Glenn Hughes "This Time Around"

Visit "[This Time Around](#)" on MotoLyrics.com

The world around us hangs in doubt  
You face a crime that we'll hear about  
To pay the cost, would never be the same

Eternal lovers, we're not to blame  
There's no mistake, there's no refrain  
The same surroundings that stood  
Are here again - this time around

As I look around you can't be found  
To lose you, I'd rather see the endless  
Time and space go passing by

This time around  
This time around

So look around, we all will be found  
In love

The world around hangs in doubt  
You face a crime that we'll hear about  
To pay the cost, would never be the same

Eternal lovers, we're not to blame  
There's no mistake, there's no refrain  
The same surroundings that stood  
Are here again - this time around

As I look around, you can't be found  
To lose you, I'd rather see the endless  
Time and space go passing by

This time around  
This time around
