Cold, but still you keep on ridin'
Try to find a higher place
Gold and silver are your passion
Hide behind your painted face

When you fall, say goodbye to the future
When you fall, you let your karma burn, yeah
When you fall, a freak of mother nature
You never learn

Eyes that killed me with persuasion
Throw away the evil seed
Now your life is filled with tension
Lies, you're lost inside your greed

When you fall, say goodbye to the future
When you fall, you let your karma burn
When you fall, a freak of mother nature
You never learn
I won't be there in your corner
'Cuz the truth of the matter is, I couldn't stay
I want to be the one to let you down slowly
'Cuz you scare me to death
And you don't have a good thing to say

I won't be there in your corner
'Cuz the truth of the matter is, I couldn't stay
Oh, no, oh, no
I want to be the one to let you down slowly
'Cuz you scare me to death
And you don't have a good thing to say

When you fall, when you fall
When you fall, when you fall
When you fall, when you fall
When you fall, when you fall
When you fall
