A world of trouble, betrayal and deceit
Hiding in the shadows, there's terror in the streets
It came without warning, no one heard the call
Dark clouds are falling, the black rain will fall

Ride, ride the storm
Ride, ride the storm

The distant fire, burning on the shore
Oh, the cities crumble, I hear the gods of war
Screaming for vengeance, there's no hope in sight
Lightning and thunder striking the night

Ride, ride the storm

Ride, ride the storm

I know, burn in the conscience of every man
You don't have to push me 'cuz I'll make a stand
Won't you let me breathe? Let me breathe

When I go, I'll give back the freedom to every child
Give me the wisdom, the sadness and sorrow
But leave me tomorrow, I feel the sunshine on me

Ride, ride the storm
Ride, ride the storm
Ride, ride the storm
Ride, ride the storm

Ride, ride the storm
