It feels like a fire that burns in my heart
Every single moment that we spend apart
I need you around for every day to start
I haven't left you alone
There's something about you, I stare in your eyes
And everything I'm looking for I seem to find
All this time away is killing me inside
I need your love in my life

I wanna spend time till it ends
I wanna fall in you again
Like we did when we first met
I wanna fall with you again

Ohhhh (etc.)

We fought in a battle, nobody won
And now we face a mountain to be overcome
You can't turn away, the past is said and done
I need us to carry on

I wanna spend time till it ends
I wanna fall with you again
Like we did when we first met
I wanna fall with you again

La la la la la, whoa (etc.)

You'll try everything you never thought would work
before
When you live, when you love, and you give them your
all
You can always give up some more
Baby nothing means anything unless you're here to
share it with me
I can breathe, I can bleed, I can die in my sleep
Cause you're always there in my dreams

I wanna spend time till it ends
I wanna fall with you again
Like we did when we first met
I wanna fall with you again

I wanna spend time till it ends
I wanna fall with you again
Like we did when we first met
I wanna fall with you again

Ohh, la la la (etc.)

You again
