I can't stand this tension  
I'm pulling out my hair  
I sweat blood day and night for you  
You know this can't be fair

Tearing at my very soul  
Wounding me with words  
Shaking, as I lose control  
I must be on the verge

You've even got me crawling  
On my hands and knees for you  
I'm just your private clown  
And there's no trick that I won't do

Ah, baby you've got me jumping like a monkey  
I'm so crazy, I'll do any trick for you  
Baby, you've got me jumping like a monkey  
I'm so crazy, I'll do any trick for you

Doctor just can't cure me  
Of this strange disease  
All the symptoms that I show  
Won't remedy with ease

Madness, chugging like a train  
I'm fixed upon these rails  
When the fuse goes in my brain  
My sanity will fail

Ah, baby you've got me jumping like a monkey  
I'm so crazy, I'll do any trick for you  
Baby, you've got me jumping like a monkey  
I'm so crazy, I'll do any trick for you

I'm just your whipping, boy  
Hangin' on each word you say  
Love, so near insanity  
This time push me all the way, all the way
