How have you been?  
I haven't seen you for so long  
As strange as it seems  
The memories of you linger on

Remember that day  
My car broke down in the rain  
Well, all you could say  
Was let's kill time another way

We thought our love would do it  
But then we seem to lose it

But we are doing fine  
(Doing fine, I hear you're doing fine)  
Through a friend of mine  
(Doing fine, I hear you're doing fine)

You seem to be happy  
You found someone who understands  
Well, how about me?  
Yes, I am still a single man

We thought our love would do it  
But then we seem to lose it

But we are doing fine  
(Doing fine, I hear you're doing fine)  
Through a friend of mine  
(Doing fine, I hear you're doing fine)

I hear, I hear you're doing fine  
(Doing fine, I hear you're doing fine)  
Through a friend of mine  
(Doing fine, I hear you're doing fine)

It seems we're like two ships at sea  
That sail with different destinies  
Only together for awhile  
Now you've got your life, I've got mine  
It's funny how things can change with time  
Only together for a while

We thought our love would do it  
But then we seem to lose it

But we are doing fine  
(Doing fine, I hear you're doing fine)  
Through a friend of mine  
(Doing fine, I hear you're doing fine)

I hear, I hear you're doing fine  
(Doing fine, I hear you're doing fine)  
Through a friend of mine  
(Doing fine, I hear you're doing fine)

We thought our love would do it  
But then we seem to lose it  
We thought our love would do it

But we are doing fine  
(Doing fine, I hear you're doing fine)  
Through a friend of mine  
(Doing fine, I hear you're doing fine)

I hear, I hear you're doing fine  
(Doing fine, I hear you're doing fine)  
Through a friend of mine  
(Doing fine, I hear you're doing fine)

I hear you're doing fine  
(Doing fine, I hear you're doing fine)  
Through a friend of mine  
(Doing fine, I hear you're doing fine)

I hear, I hear, I hear you're doing fine  
(Doing fine, I hear you're doing fine)  
Through a friend of mine  
(Doing fine, I hear you're doing fine)

I hear you're doing fine  
(Doing fine, I hear you're doing fine)
