Oh no, my heart is getting heavy  
Was I forward?  
I kinda had the feeling that it's over,  
But know I know that I'm crazy  
(I think that I'm going nowhere)  
So scream loud and look at me way down  
I know that you're afraid  
I'll hold you close and never, ever let you go

(Chorus)  
Up and down  
You spin me around  
You got everybody watching as you hit the ground  
So take a step back,  
You know I'm there

Oh God can you save me now?  
Enough Vallium to fill this room  
It's kinda hard when I'm dead right?  
It's kinda hard when I'm dead... ?

Oh love you got me crazy feeling  
Like it's nothing that I could've wanted  
Take it slowly and maybe you'll know I'm ready  
We can get over it  
Scenery is nothing more than poetry,  
Hotter than two lovers cumming next to me  
I know

(Chorus)

Why are you leaving?  
Please don't Go  
(Stay with me)  
Come On breathe  
You gotta find a way

You and I got our whole lives ahead of us  
We turn you-  
Can we turn you on?

I hope heaven needs you more,  
Than I need you now  
You know I love you  
(I can't believe it's you)
