I got a situation baby  
I hope you can handle (I hope you can handle)  
The way my hands are shaking  
When the director says action  
I know hollywood's got me

I got the notion that she's already done  
It's hard enough with the camera alone  
I see your eyes and they start to move  
They catch a hint of my selfishness.  
(Oh oh ohhh)

I'll see it in you by the person you are in me (and you  
forever)  
Me and you forever  
I'm simple like this, just as simple can be (it's me and  
you forever)  
Me and you forever  
I said it before but I got to believe in me and you  
forever  
Me and you forever  
I wanna see me with the person I am in you (and me  
forever)  
You and me forever

A permanent reminder on the silver screen  
May haunt me as tape is rolling  
In sequence to my heartbeat

It's safe to say "I know hollywood's got me".

Just wait, hold on, one more, let's go,  
We're on the spot and now we're gonna give it up  
I like the way you honestly know that this is  
The only real love scene

I'll see it in you by the person you are in me (and you  
forever)  
Me and you forever  
I'm simple like this, just as simple can be (it's me and  
you forever)

Me and you forever  
I said it before but I got to believe in me and you  
forever  
Me and you forever  
I wanna see me with the person I am in you(and me  
forever)  
You and me forever

(I know hollywoods got me)

I'll see it in you by the person you are in me(and you  
forever)  
Me and you forever  
I'm simple like this, just as simple can be (it's me and  
you forever)  
Me and you forever  
I said it before but I got to believe in me and you  
forever  
Me and you forever  
I wanna see me with the person I am in you(and me  
forever)
