It's Christmas Eve under the mistletoe, we'll spend all day and play in the snow. We'll kiss all night (keeping warm). This Holiday is like last time but you know that I'm gonna get it right. I'll spend all night.

So gather round' it's goin' down, Christmas with me in a small little town, where lights and love and everyone's singing (can we be here together on Christmas eve). Singing along. (can we be here together on Christmas eve).

It's Christmas Eve under the mistletoe we'll spend all day and play in the snow we'll kiss all night (keeping warm). This holiday is like last time but you know that I'm gonna get it right, I'll spend all night.

So we will say our last goodbyes
As we leave Christmas behind
It's only three-sixty five more days
Until next time.

So sing along with me we'll sing (I'm dreaming) So sing along with me. (X2)

It's Christmas eve under the mistletoe we'll spend all day and play in the snow we'll kiss all night (keeping warm) this holiday is like last time
But you know that I'm gonna get it right, I'll spend all night. (spend all night).

It's Christmas Eve under the mistletoe, we'll spend all night (X2)

Spend all night
