So bad why can't we be everything we could imagine
I can't resist what chu want when u touch me
I can get so turned on by you
Why do you try to deny what cha feelin
As if I was someone that you never new

This is my song that I sing to you
I would have done anything for you
Just when you think that the heart is true
Love hurts you so bad

So bad why can't we be everything we could imagine
So bad why can't you see what it would mean to be so
good

So many things that we needed to talk about
So many words we never said
You could be so sinicle when you wanted
As if I beleived every word you said
This is my line this is what I choose
I could be so far away from you
Just when you think that the heart is true
Love hurts you so bad

This is my life this is my soul this is my everything
That I'm livin for
I will be loved I will be free I wont let anyone take that
away from me
This is my life this is my soul this is my everything
That I'm livin for
I will be loved I will be free I wont let anyone take that
away from me
This is my life this is my life

So bad why can't we be everything we could imagine

You should of told me you needed some time away
You should of said you need room to breath
You should of said you needed more time, you needed
more space,
You needed more ways to express what you feel
But without thinkin

This is my life this is what I choose
I could be so far away from you
Just when you think that the heart is true
Love hurts you so bad

This is my life this is my soul this is my everything
That I'm livin for
I will be loved I will be free I wont let anyone take that
away from me
I will be loved I will be free I wont let anyone take that
away from me
