[Necro]

Ladies and Gentlemen

Tonight, we present torture and sodomy

Hosted by Necrophiliac and ILL Cannibill

Relax and smoke some crills

I'll make your eyeballs go back in your skull and come  
out your ass

I'm walking on hot coal and glass, I shit on the churches  
mass

Sacroligious, I'll sever your body something prestigious

Precise cuts, I'm fascinated with women's guts

I hit your skins, and I'm jerking off on your intestines

I fuck you in your ass bitch, now your colon is swollen

When I go bowling', to achieve a strike

I use the headpiece of a dyke, I swing her brains down  
the lane

I'm a sadomasochist, one finger,

two fingers, three fingers, four fingers,

FUCK IT THE WHOLE FIST

Up your asshole, now you're ready for Ed Powers

And Rocco Sefreddi, so suck my cock hoe

[Ill Bill]

I be gettin' backrubs in backrooms of S&M clubs

I'm on drugs, during sex I use anal beads and butt  
plugs

I'm holdin' bitches dooty holes hostage

It's just the sphincter keeps me wondering the winter  
'cause my cock's big

It get's stuck, bitches be getting fucked up they  
asshole

Open ya oven, so I can cook the dooty casserole

That's how I'm livin' - givin' bitches the shits

I fuck 'em between they tits then I bust a nut on they  
lips

I vaccinate sockets with lip bloods, like if I was to flip  
once

I snag a body bag them dirty hags and cuts

Shooting chemicals directly into my jugular - look  
around,

Shits getting uglier and ugliest  
Spinnin' within my hyper-barrack chamber  
Nothing short of a bloody rusty razor finger brick that  
could stop my behavior  
Generally, and federally  
Etcetera, etcetera, including Storm Troopers lie  
deadera  
I emphasize like emphysema  
Every word I speak creeps up in your bloodstream like  
Leukemia  
I instigate mutilation  
under federal investigation escaping police stations

[Necro]

Yah I got dead bodies covered with hay in my barn  
Loud motherfuckers get there lips sown with yarn  
Out the ten story window, at first I chuck you  
Attach a switchblade to my dick, and then I FUCK YOU  
(Fuck you!)  
In and out, as I cut the uterus  
You'll soon be, familiar with torture if you're new to this  
Leave you glued to a piss stained wall  
Take my brain out my skull and watch my fuckin' brain  
crawl  
'Cause it's alive, it's MOTHERFUCKIN' ALIVE!  
Bend over and get sodomized with the four-five  
Bumpin' to the beehop, and get stunged  
I got the noose of death, so nigga come and get hung  
Willingly, your rectum gets bruised, I come from  
the world where niggas get fuckin' abused  
The realm of violent crime  
Where bitches get fucked in the pussy and ass at the  
same time

[Chorus]

Eat shit and die  
Eat shit and die  
Eat shit and die  
Eat shit and die  
Eat shit and die  
Eat shit and die  
Eat shit and die  
Eat shit and die

[III Bill]

I'm... coming out from inside the walls like Asbestos  
A ghost disappearing and reappearing when least  
most expected  
I yank kids on there own bloods when the monster  
I'ma monster, responsible for missing camp  
counselors

I'm analyzing bio-rhythms, sleeping my victims with  
incisions  
My sensory's sees catastrophic visions  
over the image of Jehovah I burn sulfur  
In retrospect I infect your innards just like an ulcer  
Then twist facial be just like Rocky Dennis, when I  
menace  
it's horrendous, my bloody appetite's tremendous  
Enormous, watch the metamorphosis, stickin' snitches  
through orifices  
Remorse is not my thoughts, when I catch a corpse  
The torture tactics I practice tear up your mattress,  
kidnap an actress  
Then activate my raiding plastics

[Necro]

When they made me, I was so, evil I broke the mold  
Necro was cold, my fuckin' birth should of been  
controlled  
If you're bold, you'll get strangled with your gold  
No but once, no but TWICE!  
Another fucking white slave soul  
From whacking off I have a compulsive dependency,  
plus a tendency  
For ruining your bitches pregnancy  
Niggas can't understand my morbid biology  
I bring new, meaning to the studies of gynecology  
When I shove, razors up your cunt you'll see  
All bitches that diss me wind up with fucking V.D.  
When I was in my mom's cunt, my father slaughtered  
me  
I came back, from the dead after my mom aborted me  
Bloody, fetus, baby of Satan, Devil's child  
Leavin' bodies on all types of motherfuckin' level piles  
So girl take fuckin' caution, 'cause if you're walking  
home alone tonight,  
ya might wind up a bitch on auction  
And if I can't take you all and you're conscious hun  
I'll be like Ralphus and shoot into you from my blowgun

[Ill Bill]

I'm stirring the pain in the center of ya brain  
Poke a path with the butcher knife, walk down the lane  
Take a stroll through the hole in your head  
Stab a nigga dead, I'd like to paint the world blood red  
Flippin' like O.J. Simpson, the Joel Rifkin, covered with  
crimson  
Everywhere you look another dead shook (shook),  
on the meat hook hangin'  
then I'm off in your place to spread your wife's legs for  
the bangin'

I love to fuck retarded chicks with wiffle ball bats, then  
watch they  
fuckin' head go splat when I pull out the gat  
I'm also into sodomizing secretaries, I'm very scary  
My ice pick rips through virgin cherries  
And all you goon's that think you got half of what me  
and my brother got  
Get chopped chopped chopped like Bobbit's cock

[Chorus (emphasize on the last DIE!)]

[Necro]  
Necrophiliac, nineteen-ninety gore  
ILL Cannibill, nineteen-ninety gore

Eat my shit  
Eat my shit  
Eat my shit  
Eat my shit

You're sucking dick for crack  
You're sucking dick for crack
