Kiss lovers on the side of the road  
You got nothing nothing to lose  
And just the good times, the sad times will pass  
You know you've got to give it a chance  
Because the cool cool side is coming up  
Oho oho oho but you love me I love you  
Let's just let's just so much for beauty

You gotta save my soul  
It's just an empty hole  
There's just nowhere to go

You walk slow I'll run after you in the sunshine  
Oho oho I want it I really need it so much so much  
I've got to give it a chance  
It's just ooh what's the point I'm wondering to myself  
I've got nothing nothing but time  
You're just a beauty accuse some bodies  
You got the arrow bang bang bang you're dead

You gotta save my soul  
It's just an empty hole  
There's just nowhere to go  
You save my soul  
It's still an empty hole... you got nowhere to go

La la la la la la la la la la la la  
I've been wondering, you been wondering too  
Like like I do just like I do

You gotta save my soul  
It's just an empty  
There's just nowhere to go...  
You save my soul  
It's still an empty hole... you got nowhere to go
