"Fade Away"

Visit "[Fade Away](#)" on MotoLyrics.com

Hey... I said hey
Every time I kick I start to break... fade...
Wait, what's your name?
Every time I sink I start to fade... fade away
When you're wasted hiding on the edge under this day
And we fade... fade away away it's your fame

It took all my time to break you
All my hearts to break you
I was on my knees begging for the love
Wait, what'd you say to me?
I'm falling to the floor and I can't see you
Anymore... anymore

Every time I sink I start to break...
It took all my time to break you
All my hearts to waste you
I was on my knees begging for the sun
It took all my time to fade you
All my hearts to break you

I was on my knees begging for the love
It's a right time... is it right?
It's a right tide... in your life...
I wanna fade out fade out aahhhhhh
All my hearts to break... for your love...
