Is this a set back what?  
I wanna break that huh?  
Oh my there's so much to love you ah  
And then we're breakin' down all those south to south

I wanna memory suddenly of what you're about  
You gotta push push push me down under the couch  
You're closing your eyes, ya counting out loud  
A little closer closer closer again  
You got some vanity girl inside that beautiful head

I've been waiting all my life to roll  
Searching for that special super soul  
She's nodding off what?  
It's just the white huh?

I guess she's sliding through the cracks under the  
blues a ah  
And then her temperature eyes so much you wanna  
disguise

I guess she's swimming through the trigger sister  
under the knife  
She wants it 17 the sun is setting you see  
Walking drinking fixing to see... you gotta grab that ah

I wanna settle the score, you wanna take take take  
everything and more

I've been waiting all my life to roll  
Searching for that special super soul

Come on - oh come on..... come on!  
You see the mystery looms from across the who  
Got an understanding that it couldn't be you  
Then all together now we're fallin' under the clouds

I got everything in between I guess that shout  
Out loud once again tell me your sins  
Battlin' the company that you let in  
Yourself but what? Still grabbing huh?

Gotta rent to pay, ain't got no job
