Save it all for when you fall down  
Well you can't take this cuz you're taking that  
And you look inside but you're looking back  
It's so lonely at the bottom of the pool

Stay away hide from me  
And you're saying this cuz you're sayin' that  
And I'm doing this and you're doing that  
It's so lonely at the bottom of the pool

And you want me to, just to love you  
And you want me to...

Hide hide away from us  
Save save the best for last  
Cause you're doing this cause you're doing that  
And your big mistake is you're missing that  
It's so lonely at the bottom of the pool

And you want me to, just to love you  
And you want me to and you want me to  
Just to love you...
