Oh, I told you  
I fell to the earth  
Like a boy in car crash  
I fell through the sky  
Oh did you notice I fell like the Berlin Wall  
Out of focus... it wasn't or was it,  
Was it that good?

Everyday that I'm near you  
I can't understand why you talk  
Talk to the mirror... well it's  
Always who I am, well always who I am  
Oh, did you notice I fell like the Berlin Wall

Ah out of focus it... wasn't or was it  
Was it that good?? Was it that good?  
Fallin' down it's the only way I care...I can
