First time I saw you girl  
I was amazed  
On how a playa like me can never resist  
Why I'd do anything just to be able to kiss  
Hold your hand  
Be reminiscing the bliss  
Now will you picture this?  
Can you see the both of us trying to get to know  
Each and every single body part of each other  
So baby let me show and teach you the art  
Tell me will you be surviving even though we're apart  
Every time I let you feel my touch  
You can never do anything  
But tell me you can never get too much  
I'll be shifting into pleasure mode  
As you remove your clothes  
Take you to the limit without stepping on the clutch  
Consider me automatic  
Now you know why haters panic  
Definitely delivering the static  
Into your bloodstream  
Now you're becoming a fiend  
Hit you like a laser beam  
Nobody can intervene

Refrain:

All day thinking about you  
Just want to get to know you  
See you every single day  
Can I know your name?  
She takes my breath away  
Hang on every word she says  
With you everyday  
Can I know your name?

I know you believe in love at first sight  
You be letting me walk you home the first night  
Every single thing that you want me to do it's alright  
Because I can see and I can tell that you so tight  
Like me on the mic  
With your body you can rely

I'll be rubbing your back creamy lotion that I apply  
See you get high when I put the cream on your pie  
You be asking me questions why I'm able to make you  
fly

Don't cry 'cause this ain't gonna be the very last  
You just have to include it into your beautiful past  
Relax as I continue collecting my cash  
Every time I look into your eyes  
I begin to cast my spell  
I know that you really cannot repel  
You be riding me and I be riding you like Montell  
So well that you're gonna be wanting me to return  
I'm a little bit concerned 'cause I might cause you to  
burn

Repeat Refrain

I need to know  
If you want to get to know me girl  
And baby I wanna know  
Can I take you there?  
Everywhere you wanna go  
I wanna love you  
Everyway you wanna be love  
Baby don't you know  
I'm all that you dream about

As I lay you back taking you on a steady track  
I can feel your temperature snap you're with the daddy  
mac  
Come on girl  
Let me hold and caress you like a pearl  
You be lying in front of me and all up in your world  
Every time I serve  
When I try to take you to the curve  
You're only capable of following my every word  
It's so superb  
You tend to submit because you know  
I will send my every passionate  
Signals down to your toe  
Before you let me leave  
Do not want to be deceived  
You're gonna have to believe unto my lyrical breed  
Indeed nobody can ever make alady come back for  
more  
Treating me like I'm the man of her dreams that's for  
sure  
Surprise  
My eyes I'll be holding your thighs  
Every single tip of your fingers you be sending me  
signs

That you want me  
You want to know a lot about me  
Girl you got me inside your pretty body
