"Empty Words"

I chased a light in vain to guide my way
I hear a voice betray the things you say
Nothing was left by darkness in the eyes of all that
stare
Nothing but empty hands I offer nothing left to share
The times you said believe for you're the one I have to
trust
Nothing by empty words you heard
That's not what I'm about

Here I am
I'm the man I claim to be
Does it seem I'm always fighting
Always fighting
On and on
Cause I'm still standing
And I believe I can save myself from you
Does it seem we're always fighting
Always fighting on and on

Soon you test my faith in every way
The promises you made the things you say
The times you said believe for you're the one I have to
trust
Nothing by empty words you heard
That's not what I'm about

Here I am
I'm the man I claim to be
Does it seem I'm always fighting
Always fighting
On and on
Cause I'm still standing
And I believe I can save myself from you
Does it seem we're always fighting
Always fighting on and on
