Libre soy

Como una paloma  
quiero oir  
donde sopla el viento  
siempre quise conocer la libertad  
que no'an quitao'

Siempre quise arrancar la opresion que no 'ah matao'

Hate  
I feel Hate  
from the moment i tried  
and i failed it blew up in my face  
cant erase  
all the time that i lost  
how i caused, tell was it worth while  
in denial  
of the lies that i live  
if you give me a reason to be  
look at me  
im the truth of a dream that i dreamed  
is reality  
can you tell me, can you show me the way  
up to me now and gotta make my own way.

i can live today, give my life away  
if i fail today will i try again

now its so wrong  
though i new to achieve  
to believe but im not that strong  
dont belong  
now my dream is come true on dream of somebody  
new  
can you tell me, can you show me the way  
up to me now and gotta make my own way.

i can live today, give my life away  
if i fail today will i try again
