Hey, hey, why do you look at me without your face,
face?

I'm gonna be the one to put you in your place

We're gonna wash it away, we're gonna push it away
We're gonna rinse it till the stars don't shine
We're gonna wash it away, we're gonna push it away
We're gonna rinse it, all the time shouting

Hey, hey, hey, get on out my brain, brain, brain
'Cause I can see your eyes, eyes, eyes
They're swallowing the sky, sky, sky
This time we're shouting, hey

Hey, hey, looks to me like you have lost your faith, faith
I'll be right over to show you the ropes, yeah

We're gonna wash it away, we're gonna push it away
We're gonna rinse it till the stars don't shine
We're gonna wash it away, we're gonna push it away
We're gonna rinse it, all the time shouting

Hey, hey, hey, get on out my brain, brain, brain
'Cause I can see your eyes, eyes, eyes
They're swallowing the sky, sky, sky
This time we're shouting, hey

Hey, hey, hey, get on out my brain, brain, brain
'Cause I can see your eyes, eyes, eyes
They're swallowing the sky, sky, sky
This time we're shouting

Hey, hey, hey, hey
Hey, hey, hey, hey, hey
