Feel like I've been wronged  
Hang my head in shame

Its been a while since then  
Now you know my name

I will find a room inside you  
And I'll lock it with a key  
All your promises are empty and  
Now you're running back to me  
And you will find yourself out of excuses  
If you hide

(chorus)  
Away we go  
When there's nothing left to show  
Whne there's nothing left to know  
So you know  
You'll fall alone  
When you're out there on your own  
And the streets become your home  
So you know

So how will it end  
Will you follow me  
You were wrong my friend  
And now I know your name

I will find a room inside you  
And I'll lock it with a key  
All your promises are empty and  
Now you're running back to me  
And you will find yourself out of excuses  
When you hide

(chorus)

(solo)

(chorus)

Away we go where no one knows your name

So you know, you know, you know, you know  
Away we go where no one knows your name  
So you know, you know, you know, you know, you know
